## Project finance plans

Longer term installations can generate administration and payment headaches. If you are the client you do not want to activate your finance agreement before project completion; but as the supplier you do not want to have to wait until go live before getting any form of payment.

Under our project finance plan we will pay the supplier invoice at the end of each stage of the project whilst the client pays us a daily interest charge on the amounts we have settled. At project completion the invoice amounts are totalled up and crystallised into a final lease agreement which is then activated.
